

Math Assessment Worksheet — Interpreting Graphs

CC0 1.0 synthetic fixture · Kelyra QA · not real student work

CC0 synthetic · single-student blank

1. The graph shows temperature ($^{\circ}\text{F}$) over a school day.

Temperature vs Time (hour)

- a) About what temperature at 12:00?

- b) Between which hours did temperature rise fastest?

- c) Did temperature ever decrease? Explain.

2. Sketch a graph of a bike slowing to a stop (speed vs time) in the box below.

Sketch box

A large empty rectangular box for sketching a graph of a bike slowing to a stop.
