Source: dated research digests under notes/company · graphics illustrate locked recommendations.

Executive recommendation

Locked recommendation

(D) Hybrid: one Activities/Groups substrate with typed templates + opt-in domain packs (Forms → Athletics eligibility → Nurse gated). Seven ordered slices; Spring Baptist starts clubs/arts/chapel + thin athletics; nurse off. Out: lunch POS, CutTime inventory, full SIS athletics/EHR.

Decision cards

Pick (D) Hybrid	Core Activities/Groups
Slices 7 ordered	Nurse Gated later

Approach pick — (D) Hybrid Activities/Groups + opt-in packs

(A) First-class modules No	(B) Groups only Incomplete	(C) Thin cal+msg No	(D) Hybrid Lock
--	--	---	---------------------------------------

Figure: A/B/C/D approach pick.

Ancillary / Co-Curricular School Activities — Research Digest

Date: 2026-09-24 Author: Chief of Staff / Grok Bot (Kelyra) Status: Ready for Chuck review SoT pair: [notes/company/ancillary-activities-research.md](#) · [notes/company/ancillary-activities-plan.md](#) Card: [t_2935363b](#) Access date for all URLs: 2026-09-24 (America/Chicago)

This dated file is a readable pack for Chuck. Full detail lives in the SoT pair above. Research + recommendation only — no app implementation. No Hermes AI staffing.

Not legal advice. Cross-link FERPA: [notes/company/ferpa-compliance-plan.md](#). Nurse/clinic = counsel before enable.

Recommendation (pick)

Best approach for Spring Baptist: (D) Hybrid

Approach	Verdict
(A) First-class modules per domain (Nurse app, Athletics app, ...)	No — overwhelms core; Eng explosion
(B) Generic Activities/Groups only (no packs)	Incomplete — good substrate, weak on forms/eligibility/nurse
(C) Thin calendar + messaging only	No — coaches keep spreadsheets
(D) Hybrid = Activities/Groups core + opt-in domain packs	Yes — lock this

Locked architecture bullets

- One Activities/Groups substrate with typed templates (club, team, production, publication, chapel/service, enrichment, clinic-inert).
- Reuse CAL, messaging, optional LAND-like Activity home, Ride only at edges.
- Packs: Forms → Athletics eligibility → Nurse (gated).

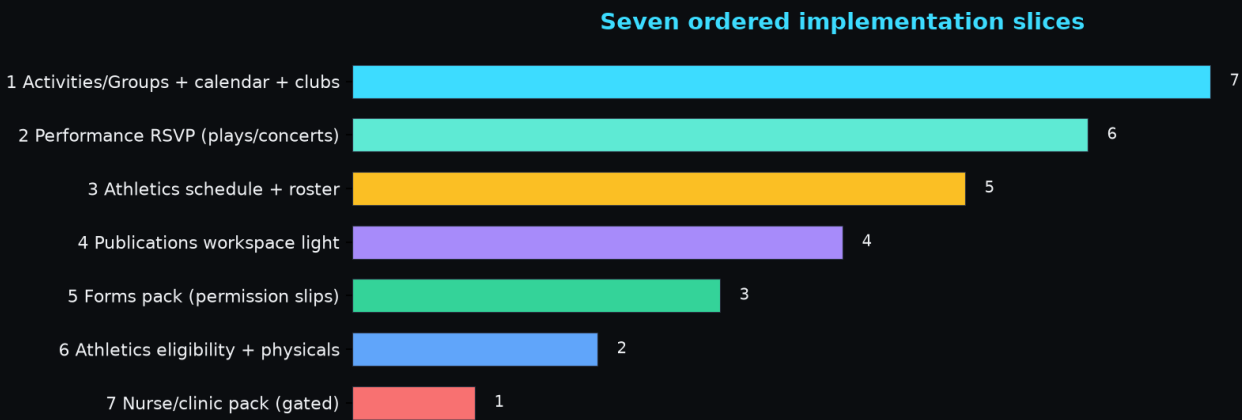

Figure: Seven ordered implementation slices.

- Spring Baptist start: clubs/arts/chapel + thin athletics schedule/roster; nurse off.
- Out: cafeteria/lunch POS; transport beyond Ride; CutTime-class inventory; Full SIS athletics/EHR day one.

Comprehensive inventory (compressed)

Group	Examples	P0 stance
Health/ops	Nurse visits, meds, immunizations, clinic incidents	Later Nurse pack
Athletics	Teams, schedules, roster, eligibility, physicals, travel	Schedule+roster P0; eligibility later
Clubs / orgs	Chess, robotics, NHS, student council	P0 Activities
Arts / performance	Plays, musicals, choir/band concerts, fine arts shows	P0 + RSVP
Publications	Newspaper, yearbook, lit mag	Light workspace P1
Faith/community	Chapel, missions, Bible clubs	P0 templates/calendar
Enrichment/ops	Field trips, tutoring, library, aftercare, volunteer, spirit	Trips via Forms; others optional
Out / optional	Cafeteria/lunch; bus routing beyond Ride	Explicit out

Ordered slices (implementation roadmap)

1. Activities/Groups primitive + calendar attach + membership (clubs)
2. Performance/event announcements + parent RSVP (plays/concerts)
3. Athletics team schedule + roster (no eligibility engine yet)
4. Publications workspace light (deadlines + file drop)
5. Forms pack (permission slips / FinalForms-lite)
6. Athletics eligibility + physicals tracking

Inventory stance (compressed)

Figure: Group inventory stance.

7. Nurse/clinic pack (gated; counsel)

Order keeps PHI and association complexity last; delivers sponsor/coach calendar+roster value first without touching gradebook home.

Industry snapshot

- SIS native: membership + calendar (PowerSchool Activities; FACTS portal/calendar; Blackbaud Activities + Athletics).

- Bolt-ons: FinalForms / Rank One / BigTeams (athletics forms & eligibility); CutTime (fine arts; Charms sunset); Apptegy/Band/Remind (comms); SignupGenius (signups); SNAP (nurse EHR).
- Pattern = substrate + specialists → matches (D).

Risks

Risk	Mitigation
Scope creep into Rank One / SNAP	Non-goals + slice gates
PHI / nurse	Pack off; counsel; isolated RLS
Coach UX	Slice 3 roster+schedule before eligibility chrome
Core overwhelm	Activities hub separate from Teach Insights
Photo releases	Forms before yearbook publish tools

Top open questions

1. Tray vs School submenu for Activities?
2. Chapel as Activity type vs school calendar only?

Pack ladder — reuse CAL + messaging

Figure: Pack ladder over substrate.

3. Nurse counsel this semester or park past trial?
4. Manual rosters OK vs FACTS sync for trial?
