Executive recommendation

Locked recommendation

corpus-v2 fills the grading-scale gap: 4×32-student quiz stacks (math/science/history/english) with keys + meta, phone photo sets, homework packs, and worksheet assessments — synthetic/CC0 only, no real student PII. Pre-v2 DITL singles remain strong for day-in-the-life beats.

Decision cards

Stacks 4 × 32	Policy CC0 / synthetic
Phone stack-phone JPGs	Card t_ac2790bc

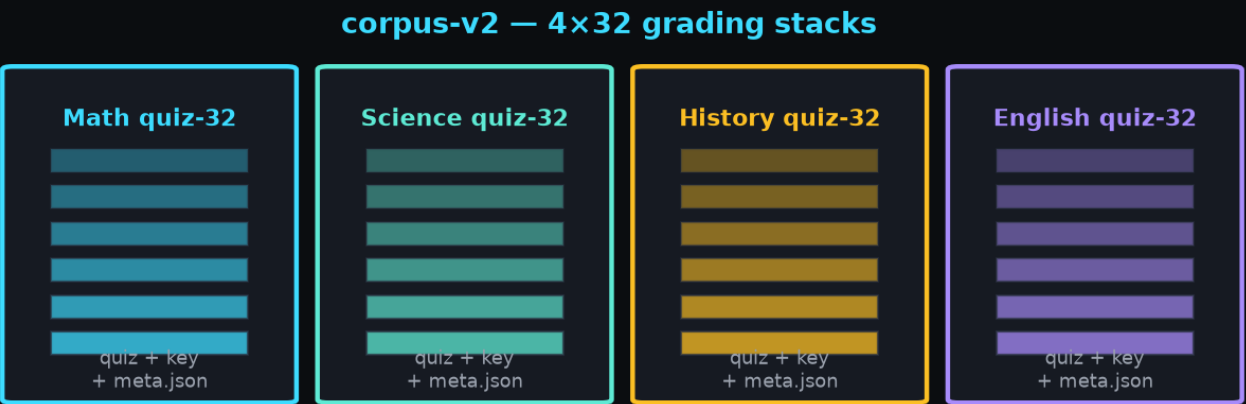

Figure: Four subject 32-student stacks.

QA Fixtures Corpus Inventory — 2026-09-24

Card: `t_ac2790bc` Scope: What already lived under `notes/qa-fixtures/` vs gaps filled by `corpus-v2/`.
Policy: Original synthetic / CC0 only. No copyrighted scrapes. No real student PII. No Hermes AI generation.

Existing (pre-corpus-v2)

Markdown samples (root) — typed extras (~28 KB total)

File	Kind	Subject	Notes
<code>math-algebra-homework.md</code>	homework + key	math	CC0
<code>ela-reading-comprehension-quiz.md</code>	quiz + rubric	English	CC0
<code>science-cell-biology-test.md</code>	test + key	science	CC0
<code>social-studies-civics-project.md</code>	project + rubric	social studies	CC0
<code>elementary-math-practice.md</code>	practice + answers	elementary math	CC0
<code>elective-music-theory-homework.md</code>	homework + key	music	CC0
<code>bible-verse-memory-study.md</code>	study	Bible (WEB PD verse)	CC0 wrapper
<code>README.md</code> / <code>QA.md</code> / ...	docs	—	index / QA how-to / DITL research

Gap: Text-only; no multi-student stacks, no flatbed PDFs, no phone photo sets, no admin forms.

Fixture coverage — before vs corpus-v2

Figure: Pre-v2 vs corpus-v2 coverage.

batch-ingest/ — edge-case PDFs (~188 KB)

File	Role	Size
<code>one-page-not-blank.pdf</code>	primary live stack packet	~157 KB
<code>one-page-not-blank.png</code>	raster companion	~12 KB

File	Role	Size
one-page.pdf	minimal 1-page	tiny
25x1-exit.pdf	placeholder / exit marker	tiny
duplex-blanks.pdf	blank duplex edge case	tiny
two-pdf-stack.pdf	multi-file stack edge case	tiny
encrypted.pdf	hard-fail / soft-warn path	tiny

Gap: Not subject quizzes; not 32-student grading packs; several stubs are near-empty placeholders.

ditl/ – Day-in-the-life photo / typed stand-ins (~4 MB images; generators + JWT runners aside)

Artifact class	Count	Examples
Pen / photo JPG	9	math quiz/HW/syllabus, science test, history HW/key, student card
Typed JPG	5	eng HW/key, hist test, bible quiz, sci syllabus
Digital PNG stand-ins	3	student card, science test, history key
Typed MD extras	2	math quiz T-02, bible practice
Generator	1	<code>generate_ditl_artifacts.py</code>
Cal R2 JWT runners	4	<code>cal-r2-phase-* -live-jwt.mjs</code> (not fixtures)

Figure: Gaps addressed matrix.

Gap: Single-page samples only (not 32-page class stacks). Limited subject coverage for KEYGRADE batch prove-outs. No admin/enrollment/roster/syllabus form corpus. No reproducible multi-pack generator for grading stacks.

Totals before corpus-v2

- ~4.4 MB usable fixture content (excluding `ditl/_pw/node_modules`).
- Strong for DITL single-artifact beats; weak for class-stack grading at scale.

Gaps addressed by corpus-v2/ (this card)

Gap	corpus-v2 deliverable
32-student quiz stacks + keys (4 subjects)	grading/{math, science, history, english}-quiz-32/
Handwriting variety + scratch-outs + intentional wrongs	Simulated in stack PDFs; labeled in meta.json
Phone photo samples	stack-phone/ (≥4 JPGs each)
Homework packs	homework/math-hw-12, homework...
Worksheets with diagrams/graphs	worksheets/math-graph-assessment, ...
Research papers	papers/ typed + handwritten-draft style
Admin / school forms	admin/ enrollment, parent info, roster, syllabi, lesson plan, rubr...
Reproducibility	_gen/ Python (reportlab + Pillow)
Index	MANIFEST.md + README.md...

Policy: synthetic / CC0 only — no PII, no copyrighted scrapes

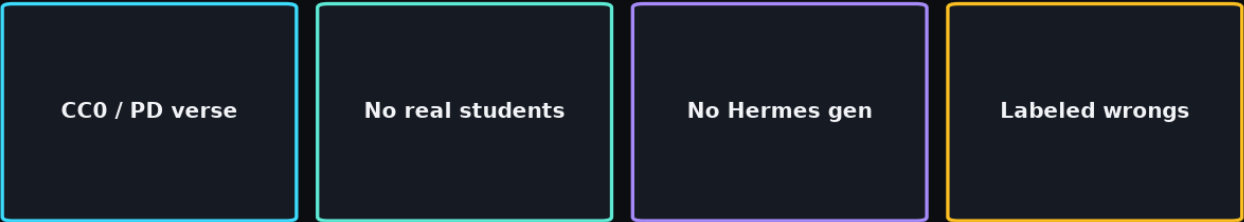

Figure: Corpus policy locks.

Preserved

- All pre-existing root markdown samples, batch-ingest/, and ditl/ remain in place. Do not delete DITL fixtures.
- Parent notes/qa-fixtures/README.md updated with pointer to corpus-v2/ only.
